CONTENTS Volume 51 1997

Volume 51 No. 1

Original research papers

Histology of somatic embryo initiation and organogenesis from rhizome explants of *Musa* spp.
K.S. Lee, F.J. Zapata-Arias, H. Brunner, R. Afza **1–8**

High frequency plant regeneration from *Eucalyptus globulus* Labill. hypocotyls: Ontogenesis and ploidy level of the regenerants
A. Azmi, M. Noin, P. Landré, M. Prouteau, A.M. Boudet, D. Chriqui **9–16**

***In vitro* plant regeneration from embryogenic cultures of a diploid and a triploid, Cavendish banana**
C. Navarro, R.Ma. Escobedo, A. Mayo **17–25**

Embryo formation and regeneration in *Triticum turgidum* ssp. *durum* anther culture
N. Saidi, S. Cherkaoui, A. Chlyah, H. Chlyah **27–33**

Embryogenesis specific protein changes in birch suspension cultures
A.K. Hvoslev-Eide, F.M.K. Corke **35–41**

Special section of papers delivered at a conference in Bangladesh, December 1995

Cell suspension, isolation and culture of protoplasts of *Allium cepa*
M.A. Karim, T. Adachi **43–47**

Environmental control for the large-scale production of plants through *in vitro* techniques
T. Kozai, C. Kubota, B.R. Jeong **49–56**

Rapid multiplication of *Jasminum officinale* L. by *in vitro* culture of nodal explants
S. Bhattacharya, S. Bhattacharyya **57–60**

Field performance and biochemical evaluation of micropropagated mulberry plants
A. Zaman, R. Islam, O.I. Joarder **61–64**

Commercialization of plant tissue culture in India
S. Govil, S.C. Gupta **65–73**

Influence of silver nitrate (ethylene inhibitor) on cucumber *in vitro* shoot regeneration
A.K.M. Mohiuddin, M.K.U. Chowdhury, Z.C. Abdullah, S. Napis **75–78**

Anther culture of an interspecific rice hybrid and selection of fine grain type with submergence tolerance
N. Mandal, S. Gupta **79–82**

Volume 51 No. 2

Original research papers

Lawsone accumulation in normal and transformed cultures of henna, *Lawsonia inermis*
A.T. Bakkali, M. Jaziri, A. Foriers, Y. Vander Heyden, M. Vanhaelen, J. Homès **83–87**

Cucurbita pepo* L. can be transformed by *Agrobacterium rhizogenes
L. S. di Toppi, N. Pecchioni, M. Durante **89–93**

Embryogenesis induction in petals of *Araujia sericifera*
J.M. Torné, P. Rodriguez, A. Manich, I. Claparols, M.A. Santos **95–102**

Acquisition of high embryogenic potential in regenerated plants of *Helianthus annuus* x *H. tuberosus*
M. Fambrini, G. Cionini, C. Pugliesi **103–110**

Monitoring the rate of oxygen consumption in plant cell suspensions
C.J. Baker, N.M. Mock, K. Deahl, J. Domek **111–117**

***In vitro* response of encapsulated somatic embryos of camellia**
L.V. Janeiro, A. Ballester, A.M. Vieitez **119–125**

Effects of genotype, explant source and growth regulators on organogenesis in carnation callus
H. Kallak, M. Reidla, I. Hilpus, K. Virumäe **127–135**

Research notes

Genetic transformation of gentian using wild-type *Agrobacterium rhizogenes*
K. Hosokawa, R. Matsuki, Y. Oikawa, S. Yamamura **137–140**

***In vitro* propagation of *Fibigia triquetra* (DC.) Boiss., a rare stenoendemic species**
B. Prevalek-Kozlina, V. Kostović-Vranješ, D. Slade **141–143**

***In vitro* plant regeneration of *Aristolochia indica* through axillary shoot multiplication and organogenesis**
S. Manjula, A. Thomas, B. Daniel, G.M. Nair **145–148**

***In vitro* proliferation of shoots and regeneration of cotton**
S.K. Gupta, A.K. Srivastava, P.K. Singh, R. Tuli **149–152**

Volume 51 No. 3

Original research papers

Protein changes associated with plant regeneration in embryogenic calli of sugarcane (*Saccharum sp.*)
M. de los A. Blanco, N. Nieves, M. Sánchez, C.G. Borroto, R. Castillo, J.L. González, M. Escalona, E. Báez, Z. Hernández **153–158**

Plant regeneration from highly embryogenic callus, cell suspension and protoplast cultures of *Trifolium fragiferum*
J.J. Rybczynski **159–170**

Effects of 1-aminocyclopropane-1-carboxylic acid, aminoethoxyvinylglycine, methylglyoxal *bis*-(guanylhydrazone) and dicyclohexylammonium sulfate on induction of embryogenic competence of mango nucellar explants
R.E. Litz, C. Yurgalevitch **171–176**

Effect of pruning or removal of *in vitro* formed roots on *ex vitro* root regeneration and growth in micropropagated grapes
P. Thomas, M.B. Ravindra **177–180**

Analysis of sweet orange (*Citrus sinensis* (L.) Osbeck) callus cultures for volatile compounds by gas chromatography with mass selective detector
R.P. Niedz, M.G. Moshonas, B. Peterson, J.P. Shapiro, P.E. Shaw **181–185**

The effect of light quality on the morphogenesis of *in vitro* cultures of *Azorina vidalii* (Wats.) Feer
M.H. Moreira da Silva, P.C. Debergh **187–193**

The effect of collection date and frozen storage on the formation of embryolike structures and elongating shoots from explants from mature *Larix decidua* and *L.* × *eurolepis*
J.M. Bonga **195–200**

A simple procedure of *Gossypium meristem* shoot tip culture
N.A. Saeed, Y. Zafar, K.A. Malik **201–207**

Micropropagation of juvenile and mature American beech
M.J. Barker, P.M. Pijut, M.E. Ostry, D.R. Houston **209–213**

Influence of growth medium on mineral composition and leaf histology in micropropagated plantlets of *Olea europaea*
R. Cozza, D. Turco, C. Briccoli Bati, M.B. Bitonti **215–223**

Research notes

High frequency shoot regeneration in *Agave sisalana*
T.D. Nikam **225–228**

Plant regeneration from peduncle segments of oil seed *Brassica* species: Influence of silver nitrate and silver thiosulfate
S. Eapen, L. George **229–232**

Erratum **233**

Instructions to authors **235–237**

Author index **238**

Contents Volume 51 **239–241**
